## TOURIST INFORMATION

### The Medes Islands

This is a protected maritime-terrestrial zone with great biological diversity. The submerged area is a protected zone that contains a number of very complex ecosystems, making it an ideal spot for diving.

### Figueres and the Dalí Museum

Inaugurated in 1974, the Dalí Theatre-Museum was atop the remains of the former Theatre of Figueres, and contains a broad spectrum of works covering the artistic career of Salvador Dalí (1904-1989), from his early artistic experiences and his creations within the sphere of surrealism through to works dating from the last year of his life

### Girona

One of the most interesting in Catalonia, the historic city of Girona invites visitors to trace its more than 2000 years of history through two fortified enclosures, the Força Vella and the Medieval Quarter. The Força Vella dates back to the Roman foundation while the medieval extension of the city walls was carried out during the 14th and 15th centuries. The highlights of Girona are rounded off by the impressive old Jewish Quarter or Call, with its beautiful streets and porticoed squares, and by the exuberant baroque spaces and Noucentisme-style buildings by architect Rafael Masó.

### El Camí de Ronda

The route of Camí de Ronda is a path made for walking along the ancient path in the seaside of the Costa Brava.

The above-mentioned, paired with the beauty of the landscape, flora and the abrupt geology of the Costa Brava, makes Camí de Ronda an authentic paradise for hikers and trekkers.
